DishPVR 508 is a combined DISH Network satellite receiver and cutting-edge personal video recorder.

FEATURES

- PVR (Personal Video Recorder) includes the ability to pause live TV, play, stop, fast forward and fast rewind at 4 speeds (4x, 15x, 60x, 300x), skip forward (30 seconds), skip back (10 seconds), set manual/auto record event timers and quick record, and also includes recorded events management features to play, delete or protect a recorded event.
- 80 gigabyte hard drive enabling up to 60 hours of 100% digital personal video recording. Actual recording time will vary depending on content type being recorded.
 - Record a live program while watching a pre-recorded program from the hard drive.
 - Records Dolby Digital™ when available.
- Extended EPG, expanded to seven days of programming is stored onto the hard drive for quick and easy access to listings information.
- Fifty event timers for scheduled program recording.
- Enhanced Automatic and Manual Event Timers
 - program the satellite receiver to record directly to the hard drive, automatically tune to a program at a designated time, or to command a VCR using infrared (IR) blast to record selected events (VCR must be powered on).
- Optical digital output for Dolby Digital and Linear PCM digital audio.
- Standard features include parental control locks, program information, themes lists, favorites list, browse, one-touch channel return, closed caption support and alternate audio support.

REMOTE CONTROL

- New "Platinum" UHF/Infrared 4-Component Universal Remote Control – controls satellite receiver up to a distance of 100 feet through walls and other obstructions and can be programmed to operate (via IR) up to three additional components, such as TVs and VCRs.
- PVR buttons: skip ahead, skip back, stop, play, pause, forward, back, record.
- "PVR" button provides one-touch access to the Recorded Events Menu.
- "TV Power" button (for TV programmed on TV mode button).
- "DISH" button for one-touch access to future interactive applications.
- Platinum Remote Control Part Number: 105880

* Requires Caller ID subscription with local phone company. Phone line must be connected to receiver.
